Understanding Your Needs

Committed to providing superior products and service to our customers, **Falcon HVAC Svc Inc.** maintains ongoing training and education programs for all of our service staff. All technicians are up-to-date on current health, safety, and code requirements. This, along with equipment use and technical updates, assure our customers the best installation and service possible.

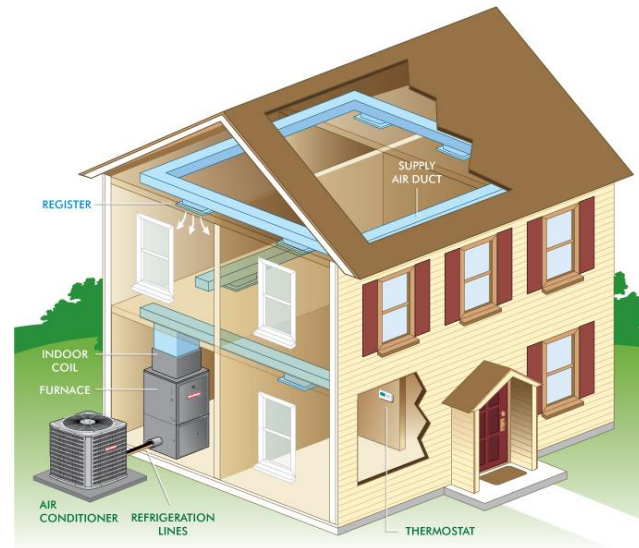

QUICK AND ACCURATE DIAGNOSTICS ON YOUR EXISTING EQUIPMENT

When one of our courteous and knowledgeable technicians arrives on site, he quickly gets right down to the problem you may be having. Our diagnostic is backed by an extensive amount of industry, technical service assistance, and wireless communication devices. Answers arrive quickly, even on the most difficult issues.

A complete Heating and Cooling package ensures you and your family are comfortable all year long. Choosing high efficiency equipment means, not only will you qualify for a rebate, but you will be saving energy and money! Call today to discuss upgrading your current system. We offer free estimates and different options with each proposal.

Financing Available by FTL Finance.

- Quick approval process - within ten minutes!
- Less Paperwork
- Fixed interest rates - your customer will not pay more over time
- No hidden fees or other charges for you or your customer
- Same as cash plans available (For Residential Customers ONLY)

HVAC Facts

The heating and cooling industry generates an estimated **\$65 billion** of revenue in the United States.

Vegetation should be kept at least **2 feet** away from any outdoor heating and cooling unit, in order to avoid damage.

Newer, more modern HVAC units often allow home owners to save money on energy bills due to the fact that they are **more energy efficient.**

Installing a **programmable thermostat** can save a homeowner **10%** on heating and cooling bills.

Proper shading around your home can **reduce cooling costs by 10%** during the summer months.

MAINTAIN YOUR EQUIPMENT

Regular Maintenance / service agreements with **10%** discounts on all repairs. Seasonal tune-ups extend the life of equipment-on average- **30%**.
